Seeing is Changing

Most people who say they hate cats, really don't. They are people who have never had a cat. Folks come to my home and tell me they dislike cats, yet, when they leave after their brief visit, they truly like them. My cat, Cutey Face, is a diplomat of Good Will for cats. She entertains my guests better than I do.

Chicago, Ill.

Mrs. Leon Gadomski

Hi Jinks in New York

At the Atlantic Cat Show while cross-examining that great reporter, Mrs. Barbara Cobb, as to her authority for the fact that all Burmese are hybrids, as published by her in *All Pets*, January 1948, page 43. I was startled to be advised by her that it was reported to her by a member of the Board of C. F. A. that it was well known in the Cat Fancy that it is my money that is behind CATS MAGAZINE, that in the exercise of my control of CATS MAGAZINE I had given you advises to the effect that you were to accept no articles from Barbara Cobb and that you should slant the policy of the magazine contra to C. F. A.

It so happens that I have no memory of investing any moneys in CATS MAGAZINE or of offering you directions as to the policies of the magazine but of course my business affairs are multitudinous and varied and who am I to set up my poor memory against the august authority of a "member of the Board of C. F. A." and against the great body of knowledge of the Cat Fancy. It seems therefore that an accounting is due from you as to past profits from your very fine periodical and an explanation as to why you continue to publish information as to C. F. A. shows, to say nothing of reporting the antics of the C. F. A. Board.

Of course, if your records should bear out my own memory to the effect that I have no moneys in or control over CATS MAGAZINE (in spite of the great authorities to the contrary), you are at liberty to use this letter as authority for publishing my denial of said allegations if such you should choose to do.

Needham, Mass.

Donald M. Came

News from Holland

We moved last year from Evanston, Illinois, to The Hague, Holland. This summer we settled in the suburb of Wassenaar and procured a Siamese kitten from a breeder in The Hague. When we heard that the first cat show to be held in Holland since the war was to take place at The Hague, we entered our little "Gamine" (11 mos.). You may imagine how delighted we were when she was judged the best Siamese cat out of 50 in the show. She won the award "Excellent," the big championship ribbon in the colors of Holland (red, white and blue), a gold medal, two British prizes (a cup and spoon), a pot of meat and two money prizes. Are we proud of Gamine!

Mrs. J. A. Schuurman.

Amazing Relief for TORTURED Dogs and Cats

SKIN ITCH: Don't be too quick to blame fleas, mange, diet, if pets itch—scratch continually. 2 to 1 it's "FUNGITCH," fungus infection discovered by noted veterinarian, Dr. A. C. Merrick. Much like athlete's foot, it itches painfully—soon develops dandruff-like scales or mouldy-smelling brownish-edged sores around tail, on paws, back or underbody. Dr. Merrick's SULFODENE applied externally stops the itching in minutes—clears up scales and sores in a few days. Generous treatment \$1.00 in stores or order direct—address below.

EAR CANKER: If pet repeatedly rubs ear on floor, etc., shakes head or holds it in stiff, unnatural way, examine ears carefully. If hot—sensitive—musty-smelling, you know it's ear canker (otitis). Apply Dr. Merrick's EAR CANKER Creme at once—scoop tip off handy gelatin capsule—squeeze Creme into each ear. It contains wonder-drug, Tyrothricin. Works swiftly to relieve pain, remove causes and promote healing of ear canker. All 10 capsules in package seldom needed. Only \$2.00 per package at stores or order direct from BROOKFIELD LABORATORIES, Dept. C-268BROOKFIELD, ILL.

SURVEY

Last April, an enterprising group in Chicago organized to form the American Cat Fanciers Congress. For its first (and last) act, a postal card was enclosed with the formal announcement of the Congress. The recipient was asked to check, in the small box provided, the following statements:

1. "I am interested in uniform Show rules."
2. "I wish a streamlined Cat Fancy."
3. "I would like a Banquet."

The postal would then be dropped into the nearest mailbox. Three flicks of a pencil, and "organized catdom" would be off in another direction. The postal query was streamlined because it had the address of the Congress' secretary printed on the reverse.

Five hundred letters with postal questionnaires were sent nation-wide. Twenty one straggled back. The tally-up revealed that the twenty-one senders checked No. 1; thirteen flicked the pencil in the No. 2 box; eleven thought No. 3 statement was a fair idea.

It is presumed that the Congress officials had only one object in mind—to launch the drive for ONE ASSOCIATION.

The promoters gave up in disgust when they surveyed returns, and the movement dissolved in the thin air over Lake Michigan.

Several posted postals had interesting comment attached or written between the printed statements, we pass them on as a final gesture and climax to the late Congress:

From Illinois—"Cat shows have insufficient veterinary inspection. Too many sick cats are entered in the shows."

From California—"Good cats, and not so many inferior ones to be shown. No partiality to be shown."

From North Carolina—"A good cat magazine."

From Ohio—"I have three blue persians to sell. Do you know anyone who would like to purchase them—cheap?"

From Massachusetts—"Reports of shows to include number of entries in each competitive class."

From Pennsylvania—"There should be one registration bureau. The cat fancy should be organized like the A. K. C."

From Maryland—"Consolidation of

ABOVE is pictured the design for the 1948 All-American Cattery. The insignia will appear on the buttons of the 1948 All-American rosettes, which again will be carried out in red, white and blue and presented to the owners of the 1948 All-American Cats. The insignia will also appear on the 1948 All-American and the All-Sectional Certificates of Award. Canada and Northwest have been added to the insignia since last year. The insignia will be authorized for owners of 1948 All-American cats for use on stationery and in advertising after August 1.

the associations. . . . When a cat is made a champion, he should be recognized as one everywhere, and not only by the association under the rules in which he won title."

From California—"Better judges—better sportsmanship."

From California—"I am too much of a beginner to have ideas."

From Minnesota—"One cat association. Follow the American Kennel Club's lead."

From Pennsylvania—" (1) Uniting all cat associations. (2) a school for stabilizing cat judging and creating new judges. (3) a cat show, including a specialty for each cat division (a) tabby & tortie, (b) solid color, (c) silvers, (d) foreign & domestic shorthair, (e) all breed. (4) Points recognized by all organizations. This would mean a standard set of classifications. (5) Reserve championship on cat until same has won in a large show. This would end the making of cheap champions."

CAUTION

Readers of *Cats Magazine* as well as all other individuals and groups are warned that attempts are being made from time to time by "well-meaning" individuals or groups to solicit funds for carrying on humane projects to benefit *The CAT*. Some of this literature is very well written and so appealing in the use of the words that unconsciously one is apt to open his or her purse strings or checkbook and contribute to the "cause."

How these "well-meaning" individuals receive your name as a candidate for their sucker-list is very simple. Names are purchased usually at the rate of \$15 per thousand and, from legitimate companies who deal in this commodity. These firms have purchased the names originally from companies who are advertisers of direct mail products. You order an item by mail for your cat, and your name is then classified as a cat-owner by that firm, and eventually it is sold to a name-list company. From then on you are deluged with circulars of cat products, new cat books, and last, but not least the fancy-worded appeals for funds for some inane cat project.

Since a great number of our readers reside in New York, we wish to point out that the only known-to-be-truly-worthwhile groups *DOING A JOB* are the Greenwich Village Humane League and the New York Women's League for Animals, which operates the Ellin Prince Speyer Hospital. These two organizations have the full endorsement of *Cats Magazine*. There may be other organizations, but only these two are known to us to be carrying on a worthwhile cause.

It is suggested that if you wish to contribute that you contact your local Red Feather headquarters for the name of the animal rescue group conducting a project of benefit to cats, in your home town.

In passing may we point out that *Cats Magazine* does not sell the names of its subscription list to any "name broker" at ANY PRICE. The barrage of solicitations that you receive pertaining to cats and your interest in them therefore comes from some other source.

It is because of the spurious use by name-and-address seekers that *Cats Magazine* makes it a practice to eliminate street addresses from all names.

YOU CAN TEACH YOUR CAT--

By D. Reinke, R.N.

1. Command to "Shake!"

2. Right paw is offered.

3. Reward is given.

It is possible to teach a cat to do anything which he is physically able to perform. But when we search for the best method of doing so, we must take into consideration certain well known facts of feline psychology.

The force method which has been successfully applied to train dogs can never be used with a cat. The feline personality can not take harsh words, and resents punishment bitterly. A cat is moody and temperamental, and above all, a cat is so much an individualist that he will never "show off" at the command of the trainer.

The personal pride of most cats is so strong, that they resent being caught in an embarrassing position. Therefore they are wary about anything new which they do not understand. How, then, can we teach a cat "tricks?"

If our feline subject will not respond consciously with an action at our command, then we must make him respond unconsciously. The conditioned reflex method of teaching is well-known to human psychologists, so let us apply it to our cat. In a limited way, a conditioned reflex may be defined as "a habit." We must then, make our cat acquire an habitual response to a certain stimulation. A simple example is shaking hands.

Obtain a particle of food which the cat particularly likes—canned green peas, for instance. Take one pea in the fingers of your left hand and let Puss smell it.

When he decides that it is good, let him take it, but as he does so, gently take his right paw in your right hand.

Do not lift the paw off the floor if he objects, or seems startled. Release the paw, and offer another pea, repeating the performance of touching his right paw. After a few times, he will become interested in the feeding, and accustomed to having his paw picked up.

This must be done over and over, and again and again, dozens of times. After a while the lifting of the paw becomes associated in his mind with the proffered tidbit. Soon you will find that at the sight of your hand holding food, the paw will be raised automatically. Always make it a point to take the proffered paw and shake it gently before giving the "bait."

Cats Magazine, 5 Blandina St., Utica 2, N.Y., U.S.A.

HAL NICHOLS AND BARTY OF STATION KFOX MAKE NEW FRIENDS AND CAT OWNERS NIGHTLY

To further the interest of cats, Mr. Hal Nichols and Barty have arranged to present copies of this issue of CATS to their many listeners of the popular Melodies 'n Memories program over KFOX each evening.

HAL NICHOLS,—owner-manager of KFOX, Long Beach, Calif., at ease in his studio with Barty, his performing cat, just prior to the start of his program, Melodies 'N Memories. (At left) The handsome trophy awarded Barty by the Long Beach Cat Club at its brilliant show last November. Mr. Nichols is one of America's rabid boosters of cats—all kinds—and his program each evening is a necessity for all cat and dog owners in the Long Beach area.

Believed to be the radio world's only performing cat star, "Barty," the personal pet and KFOX radio station mascot is the constant companion of owner-manager, Hal Nichols, during his nightly broadcasts on KFOX, in Long Beach, California.

Barty's frequent purring appearances on the Melodies 'n Memories program heard nightly from Mr. Nichols' Memory Room study, are evidence of the hearty KFOX head man's interest in animals generally and cats in particular. Mr. Nichols surrounds himself in the cosiness of his private den with something over seven hundred cats—all but one of which are of the inanimate variety. In addition to the handsome 20-pound tortoise-and-white who shares the mike with the Maestro, Hal also has a collection of over seven hundred feline figures of all shapes and sizes in every conceivable attitude.

Further attesting to Mr. Nichols' interest in cats are the many cat yarns he tells on his own program. And the support he has given the feline fancy has brought him many honors and awards. Most recent of these is a beautiful gold trophy given Barty at the cat show held in Long Beach last November. Barty wasn't entered in the show, but so grateful were the sponsors of the event for the publicity broadcast given them over KFOX that they

decided Hal's cat was worthy of a prize all the same. Only a few weeks previously, Mr. Nichols was the recipient of a gold plaque for his work on behalf of animals generally over the air, presented him by the Long Beach Chapter of American Veterans Committee, the Long Beach City Recreation Department, and the California Guide Dog School, the latter an organization he has long had under his wing.

Even prior to the advent of "Barty" on the scene, Hal was a cat fan of no small magnitude. Cat lovers all over the nation may remember the famous "Nosey," the original "Memory Room" mascot and first president of the KFOX Kute Kitten Klub in which hundreds of radio-listening felines held official membership cards. "Nosey Buttons," bearing the stately ink-nosed tortoise-and-white's distinctive visage were all the rage among KFOX listeners and their button-collecting youngsters at one time in Southern California.

Yes, Hal Nichols is a man who loves cats and a man who knows them, too. You'll find him at home among his feline friends—either real or statuary variety—any night in the Memory Room. And through this program—one of the South Coast region's most popular—Hal Nichols is doing much to promote the welfare of the cat world.

THE SOLID RED CAT

By Florence Kemmer

STANDARD—Deep, rich, clear, brilliant red without shadings or markings, lips and chin same color as coat. Eyes, copper or deep orange. Type, low on legs, deep in chest, massive across shoulders and rump with a well-rounded middle piece. Head, round and massive with great breadth of skull, ears small, set wide apart and not unduly open at the base. Nose, short, snub and broad. Eyes, large, round and full, wide set and brilliant. Tail, short, back level, legs thick and strong. Coat should be long all over the body and show perfect physical condition.

Much has been written about the solid red cat and whether the best are bred from solid color, colorbred, linebred, tabby, tortoiseshell, blue cream, black, or blue ancestry. This seems to be a choice of the individual breeder because winning cats have come from all of these colors. By working out the problems connected with the improvement in soundness and depth of coat color, and in the improvement of type, some breeders have tried "to kill two birds with one stone" by using either the blue or black cross. This undoubtedly improved type and quality of coat, but not always color.

In speaking of colors, blue is recessive to black; black is recessive to tabby; red and black together give tortoiseshells; and white is dominant to all colors. Both cream and blue are dilutes of red and black, and are recessive to them. A blue cream is a dilute tortoiseshell and is often called a blue-tortoiseshell.

There must be no hurry in breeding a strain or color. The process must be slow and sure instead of quick and uncertain. No one property can be stamped upon a family in less than three or four generations. Often it will take longer. After fixing the type of color or the property most desired, attention can then be turned to another point. Thus, step by step an all round improvement is obtained. While concentration is placed upon one point, others need not be neglected, although they must be subjugated for the time being to the point most desired.

Sometimes a breeder mates animals that excel in color, yet not one of their progeny is better than average. This often proves

a stumbling block to the novice because he believed that the two animals, extra fine in a specific point, will throw veritable marvels in that respect. He learns this is not always correct, and discards both the old and young stock and starts over. This is where experience often keeps the breeder from making a mistake. He knows that the points he is working for **MUST** be in the young stock. He pairs the sire to one of his daughters; the dam to one of her sons; and sometimes even mates brother and sister. The following season he usually gets what he worked for, in a more or less degree.

But close pairing of relations must be followed with discrimination, otherwise disaster will follow. Selection must go hand in hand with other operations. Sacrifice all or any of the outward points, but never sacrifice health and strength. All breeding stock must be sound and healthy.

The solid red cat is the best example of selective breeding, although the silver is a close second. All solid red cats as far as I have been able to trace, came from red tabby stock with a generous sprinkling of cream, blue, black and tortoiseshell, thrown in for good measure. In most bloodlines, the red tabby is entirely off the pedigree and is considered colorbred, which they now are, but the red tabby gene is still there as a recessive. When two solid reds, carrying the recessive gene for red tabby mate, the red tabby shows up again.

The reoccurrence of red tabby kittens has caused much comment and some dissatisfaction with the cats whose pedigrees show nothing but solid red or solid red and blue, black or tortoiseshell.

In 1915, two cats were mated. One was Queen Aimee, a cream female; the other, King Heather Rouge, a red tabby male. Two of the kittens were red tabbies, Ovid Sakis and Thaleb Splendor. They have the unusual honor of being the foundation stock for two different colors and two win-

The kitten grows to be a cat—
Let's hope the baby won't do that.
—The Family Circle.

ning bloodlines. Ovid Sakis produced Ovid Red Robe, considered the foundation stock of Ovid Cattery. Red Robe was bred to Ch. Red Toddyson of Presque Island, a large, peke type cat with heavy coat that won Best Cat twice. Madame Gaudichau of Ovid was from these two cats. She was a large, dark red tabby that gave a "Best Kitten in Show" in every litter. Other descendants in direct line from Ovid Sakis include Ovid Felix, Ovid Blenmode, Ovid Captain Jericho, Ovid Gay Hussar of Ardmore, Ovid Gay Boy of Cedar Ridge, Ovid Sir Waddler, Ovid Blenheim, Ovid Sunlit Lane, Ovid Farmer Lane and many others. It is pointed out that Callavorn Terry's Chatterbox and Callavorn Terry Twinks, All-Eastern selections last year, are also from this line on their mother's side.

In Brighton, England, according to a CP dispatch, John Winnan was granted a divorce from his wife because she refused to get rid of her 30 cats which the judge described as making life intolerable.

CAT TAILS

by Billie Bancroft

I greatly appreciate the incidents that you readers have been sending me. There is a string attached to every Cat Tail used in this column. The Cat Tail *must be authentic*.

Last week I was lunching just around the corner from the New York Yacht Club. The conversation with my companion was, as usual—cats, Persians and Siamese to be exact. My friend is a well known Siamese breeder and a bit rabid on the subject. The conversation was getting peppery. I was rather startled to glance up and find a tall, distinguished gentleman looking at me in an amused manner.

"Mind if I sit with you gals and tell you about the only breed of cats worth a damn?"

"Sit down," I suggested.

"You of course refer to the Siamese," my friend said brightly.

"No, not the Siamese," he replied.

"Persians!" I stated blandly.

"Hothouse plants," he sniffed. We both must have looked startled.

"I want to tell you about the Maine Coon Cat, the most intelligent animal that ever existed; they were first brought to Maine by foreign sailors. They were really Persians but in the cold climate of Maine their coats grew exceptionally thick, short and coarse. I have two that I would not part with for love or money. The Devil of Lubec, and he lives up to his name too. He has a consort we call the Witch of St. Andrews—the kits are the spit-n-image of their ol' man. I will send you one of them this spring," he offered—

"Oh—no," I protested,—"what would I ever do with a Maine Coon Cat—?"

"Better take it if Captain Amos sends it to you,"—a voice at my left cut in.

Looking up I saw an official of the Yacht Club, a family friend of many years. "So this is a joke—and I am in for a ragging," I laughed.

"When Capt. Amos bestows upon you one of his Maine Coon Cats it is like being raised to the English peerage."

Now I am wondering if Captain Amos Hoskins of Bucks Harbor, Maine was joking. I'm afraid not.

Down in Mobile, Alabama, is a story that rates a Sunday supplement write-up. Mrs. Mary Swenson, a career woman, has a son who is recovering from a serious illness. To amuse the boy she has stocked her manor acres with pets for him—and all the pets are WHITE. White turkeys, white King pigeons, white goats, white finches, white Persian cats, white bantams and white everything! The boy is very rapidly learning to care for the pets himself. The other day a very beautiful Persian Queen decided she would move into the stall with King George III, (a white male seamen goat). In the stall was an-

other tenant, Mrs. Yellow Bill Duck, who had a nest of beautiful white eggs. Madame B, the Persian Queen, seemed to be the
(Continued on Page 18)

"QUIET PLEASE!" Eight-year-old Peaches, pet of Mrs. R. M. Coleman of Corpus Christi, Texas, appears deeply interested in his reading. He thought "Forever Amber" was frightfully boring.

Silver Moth's Queen Ann's Lace

Merry Mount's Pola, the lovely seal-point siamese female, who was featured on the cover of the January 1948 issue of CATS, and who is owned and bred by Mrs. Lilian MacEwen Ott of Newark, N. J., won her championship at the Empire Cat Club Show in New York.

TWENTY-EIGHT NAMED FOR A-N HONORS OREGON AND WASHINGTON SWEEP SELECTIONS

Twenty-eight show cats comprise the newly organized Northwest section of the All-American Cattery, with owners of these feline specimens residing in Oregon and Washington. The states of Idaho and Montana failed to place in the listing. Oregon carried off the honors between the two representative states with 16 rankings, while Washington annexed 12.

The Northwestern section was inaugurated with the 1948 rankings and is a "cut-off" from the Western section, which now takes in California, Arizona, and Nevada.

Nineteen cats are listed in the long hair division; only one in the domestic short hair division; seven in the foreign short hair group, and one in the manx division.

Top ranking cat, from the standpoint of points accumulated is the 1947 All-American DbI. Ch. Knight's Peter Piper, seal point male siamese, owned by Mr. and

Mrs. Charles A. Knight of Oswego, Ore. Last year, Peter Piper carried off top honors in the All-Western section and rolled up the majority of his points in California exhibitions. This year he competed successfully in Canada, Oregon and California.

Seventeen different owners are listed in the rankings of the Northwestern section. Topping the list is Mrs. Pearl R. Allison of Oregon City, Ore., who boasts of four long hair headliners. Mr. and Mrs. Charles A. Knight and Mrs. H. H. Simmons were runnersup with three cats each. Four exhibitors placed two cats each in the rankings, in each instance the male and the female of each breed classification all in the long hair division.

The rankings of the Northwestern cats for 1948 were based for the greater part on the performances of these

CAT CALLS FROM ALL OVER

CICELY MELLOR HAD A PIN AND PUT IT TO GOOD USE
NOW SHE IS INVOLVED IN A SUCCESSFUL BUSINESS

Having always been intensely interested in cats of every description, it is not surprising that Cicely Mellor should be building a business career around them. It all was started in the fall of 1946 when a friend admired a cat brooch she was wearing, and ordered a similar piece to be made by hand. Soon requests for jewelry and other items began to arrive, and the next step was to launch an exclusive line of stationery.

There were huddles with artists, printers, die-makers and box manufacturers and "Felinia" was born. Don't ask how the name originated. It just "came" and you must admit that it is appropriate for the line of items she now carries and sells all over the United States, Canada, and a few foreign spots as well.

Cicely Mellor has long been of the opinion that novel items can be produced from photographs of animals, particularly cats. The most popular, she reveals, is the "photo-stamp" whereon the picture of a cat or kitten is reduced to a miniature sticker. Cat pictures also are placed on purse mirrors and book matches.

You'll usually find Mrs. Mellor with her wide assortment of offerings at the cat shows in the East, however she sends representative selections of items on consignment to some of the far-away shows.

To meet the growing demand for distinctive items featuring Siamese cats, Cicely Mellor aims to encourage manufacturers to include this animal in their designs and also to make up specialties under the "Felinia" label. Persians are included, of course, and for the legion who admire the tabby and domestic shorthair, their turn is coming very soon, she says.

Because of the name she is now making in the cat field as a purveyor of things catty, she has attracted the attention of others besides the cat owner. Recently she was interviewed over one of New York's large radio stations in a special broadcast that proved interesting, instructive and even startling to the listeners.

Cicely does not confine her feline activity to the selling of novelties to the catty set. She is very much interested in both the humane and the exhibition end of cats. She contributes much of her limited time to assisting at several of the animal welfare headquarters in New York City, particularly the Greenwich Village Humane League. Then in the fall she is really busy with the activities connected with the staging of the Brooklyn-Long Island Cat Show. During the past year she managed this event, which proved to be one of the most successful in the history of the Club.

HERE IS "FELINIA".—We know you are interested in seeing Mrs. Cicely C. Mellor, who sells you that stationery, photo-novelties and other cat items. She is holding one of her little Siamese "helpers," who says "Hey! Let's get this over with so the boss can get back to work." Funny thing, cats! (Siamese is—Pei King, owned by Mrs. Julius Kohlus.)

So you see there is never a dull moment in the life of Cicely Mellor. She is always on the go. Business just doesn't slack for her after the show season is completed. She has a bundle of ideas for "Felinia"—to make it bigger and better than ever. She is looking to next year right now, and completely engulfed with the business at hand and the repeat orders from her trade that arrive daily.

Who knows, maybe "Felinia" will be recorded in the pages of history, just like those Egyptian cats in the early period of the Nile, that are now being brought forward by the scientists, art lovers and

excavators who are always digging into the past.

She has made a great start!

IF YOU MOVE—

Please notify CATS immediately if you change address 30 days before you move to insure prompt receipt of next month's issue. The Post Office does not forward magazines to new addresses and CATS cannot send a duplicate copy. If you send us the label from last issue, it will help.

1948 ALL-NORTHWESTERN

(Continued from Page 10)

thoroughbred in the Rose City Cat Club Show staged at Portland, Oregon and the Pacific National Exhibition Cat Show at Vancouver, B. C., Canada. Aside from the top-ranking cat, Peter Piper, two other exhibits added points to their totals by successfully competing in Eastern Canadian and Midwestern United States shows. These were the burmese female, Laos Luzi Wat of Lor-Mi, owned by Mrs. Michael Chervenak, and the abyssinian male, Fairchild's Gold Tick, owned by Miss Betty Lee Binns. Both owners reside in Bremerton, Wash.

With the exception of Peter Piper and the blue male, Ch. Nicholas of Wayside Blues, which took Best Cat in each of the exhibitions entered, point totals of the ranked

felines are expected to be lower than in other competing sections. The cancelation of a Show in Seattle, Washington, because of the failure of the committee to obtain a suitable hall, quite naturally lowered the point totals as well as the number of cats in the listings. This is no reflection on the quality of the cats in any way. It is the feeling of the All-American Board that the representatives of the Northwest would vie on even terms with the two ranking cats of other sections.

The Northwestern cats of 1948 are not the personal choices of the individual members of the All-American Board, nor the hand-picked selections of CATS MAGAZINE. Each and every cat has been selected on the basis of its performance in the show ring, with a mathematical system applied to the results, determined by the final decisions of qualified judges.

YOU CAN TEACH YOUR CAT

(Continued from Page 6)

After a time, Puss will respond to your outstretched hand by placing his paw on your fingers even when he sees no food. He associates this action with the treat, but don't disappoint him too often! This action has become a "habit," and is not, as far as Puss knows, a trick. Once firmly established, these "habit patterns" seem fairly stable, and need not be retaught. A cat does not forget.

Most cats can be easily taught to retrieve any object small enough to be carried in the mouth. A very small rubber ball which can be grasped in the teeth is best. Puss loves to play, and to chase a ball is the best of fun. If he picks it up when he catches it, take the ball gently from his mouth and throw it again. Hold your hand under his mouth, stroke him, and he will drop the ball into your hand. Continue taking the ball out of his mouth. Before long, you will find him bringing his ball to you and begging for a game.

Another easily taught trick is having the

cat jump through a loop made by clasping your hands together.

Begin by placing your hands on the floor, with Puss on the inside, so he can step over the barrier to reach a bit of food offered by another person. Gradually, you may raise your hands higher and higher until he is making really high jumps. The point to remember is that the repetition of any act, performed over and over again the same way, becomes a habit, or reflex action, and the thing which we are trying

to do is not to teach our cat tricks which he must do for our amusement, but to train him to an habitual response to a set stimulation. Keep in mind that there are many things which we can teach our cat, provided we have patience and a true love and affection for our pet.

Newspapers Back New Louisville, Ky. Club

First meeting of the Kentucky Cat Club (Louisville, Ky.) was held January 18 with the following officers elected: Mrs. Necolia W. Slobodian, 119 North 46th Street, Louisville 12, Ky., president; Miss Mary P. DeMombon, vice-president; Wanda Bott, secretary; and Eve Case, treasurer. Next meeting was scheduled February 15 at which time national affiliation will be announced.

"The newspapers here are cooperating beautifully," it was reported.

The Solid Red Cat

(Continued from Page 8)

Now to return to the solid reds. Thaleb Splendor, a litter brother of Ovid Sakis, covered himself with glory in 1920 and 1921 by going Best Cat in Show at Vancouver, B. C., Canada. Lady Splendor, a solid red was mated to him, resulting in the solid red, Prince Eppo of Oz. Del Norte Cattery purchased Prince Eppo and Que Tea of Oz. At the time Prince was a champion, but Que Tea was a young cat and from this remarkable pair come some of the outstanding solid reds in America today.

From this pair came Ch. Roi Eppo del Norte. His matrimonial venture with his granddaughter, Lin del Norte produced Dbl. Ch. Charro del Norte. Darb del Norte, a great granddaughter of Ch. Roi Eppo del Norte was bred to Charro and produced Dbl. Ch. Charrito del Norte.

The writer purchased Charrito as a kitten. He was Best Cat once, Reserve Winners seven times, Best Champion five times, Best Opposite Sex Champion four times, Best Open Male twice, Best Red Male, Best Red Cat and Best in Color, nineteen times, out of twenty-two times shown. He was defeated twice by his own progeny. He and The Lady in Red, a great granddaughter of Ch. Roi Eppo del Norte on both her father's and her mother's side were the foundation stock of the Silver Moth solid reds. Golden Goddess, undefeated Champion Charrita, Charrette, 1947 All-Southern; undefeated Champion Firefly, 1947 All Southern; Charrene, 1947 All-American and All-Southern; Sunshine Boy, Bit O' Personality, 1947 All-Western; Comrade and Judy, winners on the Pacific Coast; Frolic, Sunshine Serenade and Charridette are other winners descended from these Silver Moth cats.

There is another equally famous line of red cats descended from the red tabby, but from an entirely different line than old Queen Aimee and King Heather Rouge. These came from Prince Coral and Lady Kit Kat, both red tabbies. Prince Coral and Tonkia, a solid red produced Lincoln Pom Pom, a red tabby. Lady Kit Kat and Red Ruff, another solid red produced Lady Petunia, a red tabby. Lincoln Pom Pom and Lady Petunia were the parents of Prince Pom Pom. This red tabby mated to a solid red, Sandy T, to produce Madam Fluffy Ruffles, a solid red. She was bred to the famous champion, Bimbo Cravensand. As a result Eiderdown Rolled Stockings, another solid red was produced. Rolled Stockings is behind many of the Eiderdown winners today. After twenty-five years of selective breeding for solid reds, it is doubtful if a tabby marked kit ever makes its appearance at the Eiderdown Cattery.

Ch. Eiderdown Rolled Stockings was

THE SKIPPER AND HIS MATE

When Errol Flynn, Warner Brothers' picture star, heads for the briny deep, accompanying him on his cruise is Bes Mudi, his seal point Siamese, who is the mascot of the yacht, *The Zaca*.

Bes Mudi is the talk of the picture colony and a favorite at every port of call. He takes over when Skipper Flynn is busily engaged with picture work at the studio, and is a gift to the Hollywood picture star from his makeup man, Ward Hamilton.

Bes Mudi has very famous parentage. His mother was Mei Ling and her mother in turn was Ah Fui. Mei Ling's sire was Bryant's Prince Chan who was out of the Double International Champion Si Mingo of Newton.

bred to Eiderdown Lord Chummy, a triple champion black, and Eiderdown King was from this pair. Sweetest Thing of White Birch, a blue female, was bred to Eiderdown King and produced the tortoiseshell, Madam Butterfly. She was bred to the imported blue male Delmar Paul of Alington. There were seven kittens in the litter, and the famous Plumfield Pat-Hand was one of these. This bloodline has produced some grand winners in solid reds including Dbl. Ch. Plumfield's Pat-Hand, Johnny Dough Bo., Dbl. Ch. Fourpaws Fakir, the 1947 All-American and All-Eastern male; and Plumfield Primrose. Now we find that while this strain has produced fine reds, it has also produced fine creams. None of the other red lines show this because their breeders have concentrated on solid red color, using selective breeding for the purpose. Only cats dark enough for solid reds have been used for

breeding purposes. Tortoiseshell and blue, both dilutes and recessives which lighten the color and produce cream have been introduced in this line. Not only this, but in the seventh generation behind Plumfield's Pat-Hand, is the cream male King Sea Foam, born in 1913. He had injected his cream genes into this bloodline which are recombining today to produce such winners as Ch. Daybreak of Plumfield, 1947 All-American and All-Eastern and Ch. Coralmere's Dawn of Wycliffe, 1947 All-American and All-Midwestern.

Cats Magazine Subscriber Wins Labco Name Contest

Miss Bess Honaker of Draper, Virginia, has won the Labco Name Contest, according to an announcement by Henry Egddall of the Labco Products Company, Boston, Mass.

The contest was conducted last winter by means of paid advertising placed exclusively by the Labco Products Company in the pages of CATS MAGAZINE and *Dog World*. Miss Honaker entered the contest after reading the advertising in this publication. She is a charter subscriber. The winning slogan was "Beauty Bath" to be applied to the Labco Pet Shampoo product. The company has added the additional wording, "Of Champions."

The lateness of the announcement of the winner, it has been explained, was because of the time consumed in checking the slogans for registration in the United States Patent Office at Washington, D. C.

Miss Honaker has been a subscriber to CATS since it first appeared in circulation, January, 1945. She resides in picturesque Draper Valley in a stone house, built by her ancestors in 1804.

TWO-HEADED KITTEN REMAINS ALIVE FOR A MONTH

By Ida M. Mellen

Among the many cats owned by Dr. H. K. Corning, New York City, was one having two heads, two necks, one body and four legs. An anatomist, Dr. Corning succeeded in keeping the kitten alive for about a month.

It was a delightful little creature and loved to lie on his lap, while one head licked the other.

Both heads, however, had appetites and ate too much for the single stomach, which, on autopsy, was found greatly dilated.

ACA Stud Book Listings Begin Volume No. 40

Volume 40 of the stud listings of The American Cat Association was scheduled to begin in the January issue of CATS MAGAZINE. Serial begins with 19001, Mrs. Stanley Gibson, national secretary announces.

The stud listings of Volume 39, which have been published since May, total 706 registrations. A check reveals that siamese far outnumber the total of all other cats with nearly 50%. There were 205 seal females and 139 males in the total. Three blue points were registered.

Blues lead in the long hair group with 95, of which 55 were females.

Volume 39 began in this publication effective with serial number 18300. Previous listings in this volume are recorded at the secretary's office.

Actor's Cat Driving Auto Lands in Jug with Owner

According to an AP dispatch from West Los Angeles, Film Actor Allen Jenkins pleaded innocent in Municipal Court to a misdemeanor charge of driving while intoxicated in late January. Judge Joseph Call set his jury trial for mid-February.

Jenkins and his pet cat were detained by the police for six hours and released on \$150 bond, the actor protesting:

"Smiley (the cat) was driving. I was just along for the ride."

CAT TAILS

(Continued from Page 9)

point of a triangle. Mrs. Yellow Bill would have nothing to do with this kind of a situation so she moved out, leaving her beautiful nest of eggs. Madame B was horrified; King George III was speechless. They went into a huddle. The result was that Madame B. is warming the neglected eggs, and sits there hour after hour thinking about whatever cats think about when they think, while King George III watches over her with adoring eyes. Madame B is truly his queen!

In "little ol' Rhode Island" lives a charmingly attractive little breeder. I refer to Mary Ohlin, unassuming and modest to a fault. You'd never find out from her the nationally known cats she has bred or those she now possesses. No siree, you have to dig in and ask questions. Do you know Wimauma's Masterpiece or Wimauma's Morfydd of Allington or Hesperus of Allington? They, and many others, belong to Mrs. Ohlin. She tells me of her beautiful peke-face Thumbelina whose special playthings are belts. When Mrs. Ohlin

dresses to go out,—always there is a belt missing. One day Thumbelina was caught in the act. Mary Ohlin chased her and found that she had a drawer in the bottom of a cupboard where she loved to sleep. The door was left open for her most of the time, and she had collected no less than six belts in her lair. She was scolded soundly and the belt was taken away from her. Mrs. Ohlin returned to her room to finish her dressing. A day or so later again she was getting ready to go out. Hearing a noise she looked around and saw little Thumbelina walking into the room with one of the belts that had been left for her to play with. She was carrying one end in her mouth with the length of the belt dragging down under her tummy and away back of her. All the time she was coming in she would be talking. If she ran too rapidly, she would step on it and yank it out of her mouth. Then she would scold, but she always went back and got it again.

Neither Mrs. Ohlin nor her daughter could ever dress to go out without Thumbelina bringing them a belt to wear.

She was very much upset if they did not take it.

A Kittenish Poem

I once had a cat I called Sir Ben,
Kittens came along and then, oh then
I knew the cat was not a sir,
So I quickly changed the name to
Ben-Hur.

—Rocky Mountain News

The Coronet Bookshop, 622 St. Peter St., New Orleans 16, La., has issued a price-list of hard-to-get cat books. A 3-cent stamp will bring you a copy.

On Dominion Network

The "Story of CATS MAGAZINE" was the subject selected by Claire Wallace for her Canadian network program January 28. The 1948 All-Canadian selections also were discussed. The program originated at Toronto.

Miss Wallace broadcast the Royal Wedding ceremonies direct from London last November.

THE Breeders' Digest

LILLIAN D. LIMPERT
RD 3, BOX 96
MENTOR, OHIO

One of Catdom's most well known cats passed away December 21. Double Champion Honey Boy of Corso, age 16, 4 months and 13 days went to his reward. Many silver breeders all over the country have this name in the pedigree of their good silvers. Among his many offspring are two Grand Champions, several doubles and many champions. He will be greatly missed by Mr. and Mrs. H. B. Zieses of Detroit, Mich.

Mrs. Lester O'Neill found the blue male novice entry, Jubilee of Bluelace, exhibited at Milwaukee Cat Club's show, too appealing to resist. Her instinct to buy him was a wise one, as was evidenced by his sensational win of Best Cat in Beresford's show a few weeks later. Jubilee is sired by Boris II, ex Dixi Land's Sweet Mystery, a daughter of Gr. Ch. Dixi-Land's Salute. He was bred by Mrs. R. A. Lacy, Johnson City, Tenn.

Rosemont's Duchess, blue female, presented her mistress with a litter of four sturdy kits, sired by Ch. Great Lakes Charcoal. Even though Mrs. F. Kosicrowski assisted in their birth, there was one casualty, a blue male. The two remaining blues are females, pale in color. There is also one black male, thriving nicely. Jinx of the Tower also has one adorable light blue kitten. Ch. Dixiland's Valiant of Eden sired that one.

Mrs. C. F. Rotter, Minneapolis, Minn. is looking forward to seeing the little black girl who is to be shipped to Briargate upon her return from the West Coast judging assignment. Iroquois Jetta, daughter of Iroquois Nut Chuck, by Iroquois Black Dandy was born in May, 1947. She should make an interesting cross for either of those promising black youngsters which Mrs. Rotter recently bred.

Mrs. R. Hardacre, Akron, Ohio is grieving the loss of Wimauma's Jeremy, son of Gr. Ch. Woodchurch Periwinkle, ex Mag-nella of Wimauma. However, she is somewhat consoled with the knowledge that Blue Sylvan's Lady Beaumaris will soon be having kittens sired by him.

Mrs. William H. Oelschlager, Croydon, Pa. has added three lovely white cats, Ch. Sno-Krest's Ivory, Sno-Krest's White Sister and Sno-Krest's Little Lover to her cattery. She is well pleased with these and found Mrs. Charles Rymal of Detroit, Mich. most pleasant to deal with.

One of the grandest holiday surprises was contained in the news airmailed by Mrs. L. H. Simmons, Seattle, Wash., which

arrived Christmas Eve. This, was on the outcome of the Rose City show held in December. Her two blacks figured well in the finals of both all-breed and solid-color events. Nigrette's Scarlet O'Light Wing making her initial appearance was named Best Novice of all breed and Second Best Opposite Sex cat in solid color. Her mate, Ayme-Tu-Wynn's Midnight, sharing spotlight honors was chosen as Second Best Cat of both events. Congratulations, Mrs. Simmons!

Many of the exhibitors at the North Shore's Cat Show will recall that charming young couple who spent the day visiting about with the breeders, when they were not to be found over in the Siamese division, or gazing admiringly at the black entries. With the happiness radiating from their glowing young faces it was not too difficult to surmise that these were newlyweds. Mr. and Mrs. Felix Dredzell Porter, Jackson, Miss., came to Chicago on their honeymoon, and attended the show as a part of their carefully laid advanced plans. The next day was spent in a tour of the radio stations. At "Welcome Travellers," Ann, pardon me, Mrs. Porter, was interviewed on the air and told of her hobby of raising cats. Imagine the thrill Mrs. Herbert Forrest experienced back home in Mississippi when she heard her daughter's voice over the air. 'Twas a day of excitement for the couple with luncheon and dinner at famous hotels and later there were tickets for the opening night of a show; not to mention the many gifts, too numerous to be carried home. At the "Ladies Be Seated" program, Ann was again called before the microphone and was presented with a corsage and many useful kitchen articles. The couple is now happily settled in their own cozy apart-

Breeders' Digest

(Continued from Page 21)

ment which includes one of mother's Siamese kittens to liven and stir up a bit of mischief and excitement.

We are indeed sorry to hear of the accident reported by Mr. William Braun. He writes that on Thanksgiving Day, while en route to his sister's for dinner, the car skidded and overturned, with the result that the car, his mother, father and himself landed unexpectedly in a cornfield. Mrs. Braun was thrown considerable distance from the car; he was thrown clear of it, and his Dad remained in the car while it rolled over and over. A month after the accident found Mrs. Braun still confined to her bed in Francis Hospital, Macomb, Ill., with fractures, a seriously injured leg, sprained ankles and internal injuries. Her condition now is most satisfactory but she must remain there for some weeks to come. We know how all this has dampened the spirits of the entire family during the holidays but hope it may cheer them a bit to know that their many friends in the Fancy are sending their well wishes for a complete and speedy recovery.

Very belatedly, by the time this appears in print may I take this opportunity of giving my heartfelt thanks for the lovely cards, with many pictures of famous cats that found their way to Nigrette at Christmas time! Thanks a million, folks, it's grand to be remembered!

OBITUARY

REGINALD INNES POCOCK, F.R.S.

1863-1947

Mr. Pocock, who enjoyed an international reputation as a great British cat authority, died suddenly in London on August 9, 1947, at the advanced age of 84. Since 1923 he had been temporary assistant in the zoological department of the British Museum of Natural History, the only museum in the world which maintains an exhibit of mounted cats. His interest in the domestic feline never waned, and in his passing cats everywhere have lost a devoted friend.—I.M.M.

JOHN QUINN

John Quinn, husband of Elsie L. Quinn of San Gabriel, Calif., well-known breeder of Siamese, died of a heart attack at his home January 1. Mr. Quinn was a member of several cat clubs on the West Coast. Mrs. Quinn is vice president of the United Cat Federation.

ALEXANDER STEWART WEBB

Alexander Stewart Webb of Garden City, N. Y., financier and president of the American Society for the Prevention of Cruelty to Animals, died January 22 at the age of 77.

Mr. Webb had been president of the ASPCA for the last ten years and a member of its board for 35 years. He had served on the board longer than any present member. He had long been interested in thoroughbred horses and dogs and this led to his service in the prevention of cruelty to animals. He was elected to the board of managers of the ASPCA in 1915 and was chosen treasurer in 1924. He was also a member of the board of the American Humane Association, on which he served for many years.

Mr. Webb was a leading figure in finance until his retirement in 1935, having held the presidency of several New York banking firms.

Quart, \$2.75

Gallon, \$8.50

CH. PERIWINKLE WHITE CHRISTMAS
1947 All-American Orange-Eyed
WHITE PERSIAN MALE

ANOTHER LABCO BOOSTER

"I breed Blues, Whites, and Creams, and until LABCO PET SHAMPOO came along, it was really a problem to keep them free of fleas and clear in color, as so many shampoos leave a film on the coat which darkens the color. For kittens, show cats and kennels,—LABCO is truly the 'All-American'," writes Mrs. Anita McDonald, of Bagdad Cattery, 78 North Columbus Avenue, Freeport, L. I., New York.
